

Boundary Changing Policies for Districts

A request for a district boundary change should be submitted to the state adviser to be included on the executive council's agenda at its annual meeting or for distribution by mail if the proposal is submitted after the annual meeting is completed.

The requested proposal or proposals are disseminated to the State FBLA Executive Council and Board of Directors. Both the council and the board vote upon the requested boundary change. The state adviser will be responsible for distributing the results of the vote by the council and board to the active chapters within the districts involved in the proposed change or changes.

The chapters involved will receive a ballot by which they may ratify or reject the decision of the council and board.

A majority of the valid ballots returned by the date designated on the ballot will be sufficient to determine the ratification or rejection of the proposal. In the event of a tie, the vote of the board of directors will be used to determine whether ratification or rejection won.

A district may petition for division when there are 16 active chapters in the district.
